# Venue & Bedroom Bookings

## **BEDROOM ALLOCATION**

You will have an opportunity to have access to 14 bedrooms should you wish to book them, you may book as many bedrooms within the 14 as you would like. We have 15 rooms, the room we will not initially make available is the second bridal suite which we will keep in reserve in case the bride or groom for the day after your wedding wishes to stay the night before their wedding, the same courtesy will be extended to you should you wish to stay the night before your wedding. If you are staying the night before your wedding you will not be able to choose your bridal suite on that night, however on your wedding day the choice will be yours. Please note that check in time the day before your wedding will be 4.30pm if we have a wedding taking place that day.

If there is no wedding taking place the day before your wedding if you wish to stay you must book the 'Night before package'. This package includes a honeymoon suite, a mini suite and a deluxe twin room (the latter two can be connecting), the cost of this package is £999 and includes pizza in the suite and two bottles of sparkling

Glenskirlie Castle

wine to let you enjoy those last minute preparations in the comfort of your own room.

We look forward to receiving your request.

Please note you still do not need to book any bedrooms however if you do not book all rooms there will be guests other than your wedding guests staying in the hotel.

Room and suite allocations - Our rooms are often refurbished and therefore decor can be changed from time to time. All our rooms and suites are furnished and specified to the highest standards. We are unable to guarantee a specific bedroom, should you wish a particular room we can note a preference for this room against your booking.

## **BOOKING**

The discounted room rate can only be booked through the bride and groom. We can not accept individual bookings and payments as potentially a situation could arise when the wrong person is given some of your room allocation.

We generally only open the hotel part

of the castle when we have a wedding booked, as a service for wedding couples on their wedding day. The hotel is opened regardless of whether we have one room booked or all rooms booked. It is not, as most venues insist, obligatory for wedding couples to book a certain amount of bedrooms. As a wedding venue we have made this commitment to open the hotel for you, therefore please note if we have lots of room nights available over an extended time period, we may approach an independent retailer to sell surplus rooms at further discounted rates. The other option would be to insist that bridal parties take all of their bedroom allocation which we believe is not what all of our wedding couples require or want.
